MEMORANDUM

SUBJECT: EEB Review of List A DCI Package for Metribuzin.

TO: Lois Rossi, Chief
Reregistration Branch
Special Review and Reregistration Division, H7508W

FROM: James Akerman, Chief
Ecological Effects Branch
Environmental Fate and Effects Division, H7507C

EEB has reviewed the List A DCI package for Metribuzin. There are no changes from the inventory conducted last year. However, a clarification of one of the data requirements listed in the inventory needs to be made. The acute avian dietary study with the mallard duck is still outstanding. The dietary study with the bobwhite quail has been fulfilled. The fish early-life stage test (72-4A) and the invertebrate life cycle test (72-4B) should be added to the DCI notice. (See Inventory Summary Sheet.)
